_The English-Speaking Peoples - Their Future Relations and Joint International Obligations_ George Louis Beer 2009-04 This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1917 edition. Excerpt: ... (6) Columns for Discount on Purchases and Discount on Notes on the same side of the Cash Book; (c) Columns for Discount on Sales and Cash Sales on the debit side of the Cash Book; (d) Departmental columns in the Sales Book and in the Purchase Book. Controlling Accounts.--The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts. The most common examples of such accounts are Accounts Receivable account and Accounts Payable account. These summary accounts, respectively, displace individual customers' and creditors' accounts in the Ledger. The customers' accounts are then segregated in another book called the Sales Ledger or Customers' Ledger, while the creditors' accounts are kept in the Purchase or Creditors' Ledger. The original Ledger, now much reduced in size, is called the General Ledger. The Trial Balance now refers to the accounts in the General Ledger. It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved. A Schedule of Accounts Receivable is then prepared, consisting of the balances found in the Sales Ledger, and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance. A similar Schedule of Accounts Payable, made up of all the balances in the Purchase Ledger, is prepared, and it must agree with the balance of the Accounts Payable account of the General Ledger." The Balance Sheet.--In the more elementary part of the text, the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise. In the present chapter he was shown how to prepare a similar statement, the Balance Sheet. For all practical... _What is English?_ Tim William Machan 2013-08-22 What is English? To find an answer Tim Machan explores the
language's present, past, and possible futures. His search is fascinating and important, for definitions of English have influenced education and law in many countries and helped shape the identities of those who live in them. Finding an account that fits the varieties of English is not simple. Tim Machan grapples with its elusive essence, through episodes in its history from rural America to colonial Australia. Finally he reveals the stable category English resting among its shifting varieties. A book for everyone interested in English and the role of language in society.

_A History of the English-speaking Peoples_ Winston Churchill 1969

A _History of the English-speaking Peoples_ Vol 4 Winston Churchill 2005-04-14 Focuses on the fundamental role the English-speaking people played in bringing economic progress and political freedom to the world at large. As a work of history, this volume covers the period from the end of the Napoleonic Wars in 1815 to the end of the South African or Boer War in 1902.

A _History of the English-speaking Peoples_ Winston Churchill 1956 "Based on the research of modern historians as well as a wealth of primary source material, Churchill's popular and readable _A History of the English-speaking Peoples_ was respected by scholars as well as the public in its day - a testament both to its integrity as a work of historical scholarship and its accessibility to laypeople. Churchill used primary sources to masterful effect, quoting directly from a range of documents, from Caesar's invasions of Britain to the beginning of the First World War, to provide valuable insights into those figures who played a leading role in British history. In the last of his epic four-volume account, Churchill begins at the end of the Napoleonic Wars and ends with the Boer War of 1902. Here, Churchill presents his case for the importance of English-speaking peoples in world history and the dissemination of economic and political ideas that have changed the world."--Bloomsbury Publishing.

_A history of the English-speaking peoples. 2. The New World_ Winston Churchill 1956 "Based on the research of modern historians as well as a wealth of primary source material, Churchill's popular and readable _A History of the English-speaking Peoples_ was respected by scholars as well as the public in its day - a testament both to its integrity as a work of historical scholarship and its accessibility to laypeople. Churchill used primary sources to masterful effect, quoting directly from a range of documents, from Caesar's invasions of Britain to the beginning of the First World War, to provide valuable insights into those figures who played a leading role in British history. In this book, the second in Winston Churchill's four-volume history, the author addresses the sixteenth and seventeenth century, guiding the reader through the turbulent times of the Protestant Reformation; the clash of the Tudors and the Stuarts; the English Civil War; and the discovery of the Americas"--Bloomsbury Publishing.

_A History of the English-speaking Peoples_ Winston Churchill 2011-05-01

An authoritative survey of the history of English-speaking peoples throughout the world combines intriguing, closely observed biographical profiles of Alfred the Great, Victoria, Joan of Arc,
Lincoln, and other notables—with an account of the key events and issues of the era. The narrative commences fifty-five years before the birth of Christ, when Julius Caesar famously “turned his gaze upon Britain,” and concludes in the year 1900. The beginnings of Parliament, the Church, and the monarchy are all analyzed alongside this comprehensive abridgment.

Political English Thomas Docherty 2019-08-08

From post-truth politics to “no-platforming” on university campuses, the English language has been both a potent weapon and a crucial battlefield for our divided politics. In this important and wide-ranging intervention, Thomas Docherty explores the politics of the English language, its implication in the dynamics of political power and the spaces it offers for dissent and resistance. From the authorised English of the King James Bible to the colonial project of University English Studies, this book develops a powerful history for contemporary debates about propaganda, free speech and truth-telling in our politics. Taking examples from the US, UK and beyond - from debates about the Second Amendment and free-speech on campus, to the Iraq War and the Grenfell Tower fire - this book is a powerful and polemical return to Orwell's observation that a degraded political language is intimately connected to an equally degraded political culture.

A History of the English-speaking Peoples Winston Spencer Churchill 1956

Fight the Power! Sean Michael Wilson 2013-10-08

Named one of Rough Trade’s Best Books of 2013 According to Gandhi, the Four Stages of Protest are as follows: First they ignore you. Then they ridicule you. Then they fight you. Then you win! In Fight the Power!, comics authors Sean Michael Wilson and Benjamin Dickson team up with illustrators Hunt Emerson, John Spelling, and Adam Pasion to show how this process has been played out again and again throughout history—and has slowly but surely led to hard-won rights for the people along the way. Focusing on the English-speaking nations, Wilson and Dickson chronicle the struggles of the Luddites and Swing Riots in the early 1800s, through the Irish Rebellions that lasted through 1922; from the suffragettes in 1918 to Rosa Parks and the bus boycott of the mid-1950s; from the trial of Nelson Mandela to the Occupy movement that has only just begun. By illuminating the variety of protests—and the valuable connections among them—through an accessible art form, Fight the Power! shows that there is a point to the struggle, fight by fight, win by win.

A History of the English-Speaking Peoples since 1900 Andrew Roberts 2010-12-16

Prize-winning British historian tells the story of the English-speaking peoples in the 20th century Winston Churchill’s History of the English-Speaking Peoples ended in 1900. Andrew Roberts, Wolfson History prizewinner has been inspired by Churchill’s example to write the story of the 20th century. Churchill wrote: 'Every nation or group of nations has its own tale to tell. Knowledge of the trials and struggles is necessary to all who would comprehend the problems, perils, challenges, and opportunities which confront us today 'It is in the hope that contemplation of the trials and tribulations of our forefathers may not only fortify the English-speaking peoples of today, but also play some small part in uniting the whole world, that I present this account.' As the greatest of all the trials and
tribulations of the English-speaking peoples took place in the twentieth century, Roberts' book covers the four world-historical struggles in which the English-speaking peoples have been engaged - the wars against German Nationalism, Axis Fascism, Soviet Communism and now the War against Terror. But just as Churchill did in his four volumes, Roberts also deals with the cultural, social and political history of the English global diaspora.

Mr Churchill's Profession Peter Clarke 2013-07-04 A fascinating new look at a neglected side of Winston Churchill - his life as a professional author - revealing how his most important literary work shaped his role as a world leader, and the history of the Second World War.

Inventing Freedom Daniel Hannan 2013-11-19 British politician Daniel Hannan's Inventing Freedom is an ambitious account of the historical origin and spread of the principles that have made America great, and their role in creating a sphere of economic and political liberty that is as crucial as it is imperiled. According to Hannan, the ideas and institutions we consider essential to maintaining and preserving our freedoms—individual rights, private property, the rule of law, and the institutions of representative government—are the legacy of a very specific tradition that was born in England and that we Americans, along with other former British colonies, inherited. By the tenth century, England was a nation-state whose people were already starting to define themselves with reference to inherited common-law rights. The story of liberty is the story of how that model triumphed. How it was enshrined in a series of landmark victories—the Magna Carta, the English Civil War, the Glorious Revolution, the U.S. Constitution—and how it came to defeat every international rival. Today we see those ideas abandoned and scorned in the places where they once went unchallenged. Inventing Freedom is a chronicle of the success of Anglophone exceptionalism. And it is offered at a time that may turn out to be the end of the age of political freedom.

A History of the English-speaking Peoples (vol. 1). Winston Churchill 1956

The New World Winston Churchill 2002
In the two centuries that this volume covers - between 1485 and 1688 - many
of the landmark events described are factors that cemented the character of the nation, and the world, which we know today. England became a Protestant country under Henry VIII; his daughter Elizabeth became the celebrated Virgin Queen; and the discovery of ‘the round world’ enabled a vast and magnificent continent across the Atlantic to be sought and found. While this new era of global expansion spawned the beginnings of modern America, England was engaged in a bloody Civil War and ‘the country sustained a Republican experiment under the massive personality of Oliver Cromwell’. The volume concludes in the reign of William of Orange, the Protestant faith having been secured under a Dutch monarch. RENAISSANCE AND REFORMATION The Round World; The Tudor Dynasty; King Henry VIII; Cardinal Wolsey; The Break with Rome; The End of the Monasteries; The Protestant Struggle; Good Queen Bess; The Spanish Armada; Gloriana THE CIVIL WAR The United Crowns; The 'Mayflower'; Charles I and Buckingham; The Personal Rule; The Revolt of Parliament; The Great Rebellion; Marston Moor and Naseby; The Axe Falls THE RESTORATION The English Republic; The Lord Protector; The Restoration; The Merry Monarch; The Popish Plot; Whig and Tory; The Catholic King; The Revolution of 1688.

A History of the English-speaking Peoples Winston Churchill (Sir) 1956

British Historians and National Identity Anthony Leon Brundage 2015-10-06 Two eminent scholars of historiography examine the concept of national identity through the key multi-volume histories of the last two hundred years. Starting with Hume’s History of England (1754–62), they explore the work of British historians whose work had a popular readership and an influence on succeeding generations of British children.

Reservation Reelism Michelle H. Raheja 2011-01-01 In this deeply engaging account Michelle H. Raheja offers the first book-length study of the Indigenous actors, directors, and spectators who helped shape Hollywood’s representation of Indigenous peoples. Since the era of silent films, Hollywood movies and visual culture generally have provided the primary representational field on which Indigenous images have been displayed to non-Native audiences. These films have been highly influential in shaping perceptions of Indigenous peoples as, for example, a dying race or as inherently unable or unwilling to adapt to change. However, films with Indigenous plots and subplots also signify at least some degree of Native presence in a culture that largely defines Native peoples as absent or separate. Native actors, directors, and spectators have had a part in creating these cinematic representations and have thus complicated the dominant, and usually negative, messages about Native peoples that films portray. In Reservation Reelism Raheja examines the history of these Native actors, directors, and spectators, reveals their contributions, and attempts to create positive representations in film that reflect the complex and vibrant experiences of Native peoples and communities.

A History of the English-Speaking Peoples Volume II...
Peoples Sir Winston S Churchill
2015-01-29 "This history will endure; not only because Sir Winston has written it, but also because of its own inherent virtues – its narrative power, its fine judgment of war and politics, of soldiers and statesmen, and even more because it reflects a tradition of what Englishmen in the hey-day of their empire thought and felt about their country's past." The Daily Telegraph Spanning four volumes and many centuries of history, from Caesar's invasion of Britain to the start of World War I, A History of the English-Speaking Peoples stands as one of Winston S. Churchill's most magnificent literary works. Begun during Churchill's 'wilderness years' when he was out of government, first published in 1956 after his leadership through the darkest days of World War II had cemented his place in history and completed when Churchill was in his 80s, it remains to this day a compelling and vivid history. - The first volume - The Birth of Britain - tells the story of the formation of the British state. - The second volume – The New World – explores the emergence of Britain on the world stage and a turbulent period at home. - The third volume – The Age of Revolution Churchill charts the rise of Great Britain as a world power and the long rivalry with France, the shadow of the French Revolution, the rise of Napoleon and his defeat at Waterloo. - The fourth and final volume - The Great Democracies - reaches the modern era.
